# Who We Are

-  We are the **ONLY** non-profit veterinary clinic in the Tri-State region that provides comprehensive veterinary care.
-  Committed to people with income below 200% of the federal poverty level, including the elderly, veterans, the homeless, and people with disabilities.
-  Dedicated to providing discounted veterinary services to make them affordable to those with limited means.
-  A high quality veterinary practice, serving 3,000 pets each year, at 13,000 client visits.
-  Kind, compassionate and supportive with our clients and their pets.

## Why Pets In Need

### Too many people are struggling to afford pet care

In Hamilton County alone, an estimated 22,100 households with 61,200 pets struggle to live below the federal poverty level and cannot afford private veterinary care.

They traditionally face heartbreaking options: Either to **give up their pets** or to watch them suffer **without veterinary care**.

**Pets In Need enables people to keep their pets and keep them healthy!**

Pets are so important to all, especially those who live alone and/or have health or mobility difficulties. Pets give people a reason to get up everyday. They offer unconditional love and much needed companionship.
